

## NOTES

## KEY PLAN

- 
- Figure 10 is a detailed sectional elevation of a building facade, showing a vertical section through the wall and roof assembly. The drawing includes various materials and components, each labeled with a callout number and a description. The roof is shown with a gabled structure, and the facade features a combination of solid panels, windows, and metal cladding. The callouts are as follows:
- 001 Metal coping & RWOPs in selected colour
  - 002 Selected coloured infill panels
  - 003 Aluminium framed windows in selected colour
  - 004 Selected brick 1
  - 005 Powder-coated metal louvres
  - 006 Selected coloured infill panels
  - 007 Selected coloured infill panels
  - 008 Standing-seam metal roofing
  - 009 Selected coloured metal cladding
  - 010 Aluminium framed windows in selected colour
  - 011 Selected brick 2
